First, confirm that you have the correct template for your paper size. This template has been tailored for output on the **A4 paper** size. Margins should be: **left, 2cm; right: 2cm; top: 2cm; bottom: 2cm.**

The template is used to format your paper and style the text. All margins, column widths, line spaces, and text fonts are prescribed; please do not alter them. This measurement and others are deliberate, using specifications that anticipate your paper as one part of the entire proceedings, and not as an independent document. Please do not revise any of the current designations.

Figure's caption (if any) should be below the figure. Use the abbreviation "Fig. 1", even at the beginning of a sentence, to refer to a figure. Use 10 point Times New Roman for Figure labels. Use words rather than symbols or abbreviations when writing Figure axis labels to avoid confusing the reader. Symbols and abbreviations have to be defined in the text. Avoid equations and symbols list.

The corresponding author is required to ensure that all co-authors are aware of the content of the abstract before submission (submission implies that the corresponding author has received approval from co-authors). **Abstracts must be original. (max. one page, min 500 to max 800 words).**

Send your WORD FILE abstract to the conference email (secretariat)
